Rosedale Nurseries

WERE ESTABLISHED
in 1898 and over that period

have gained a nationwide reputation for the growing of beautiful evergreens and shade trees, as well as our big specialties of Peonies and Iris. The offers in this our latest catalog are greater values than anything we have on record. Our Summer inventory showed an overstock of many choice items. These we are offering here at our lowest prices believing that purchasers of these items will become permanent patrons of Rosedale. The special offers are indicated by a line top and bottom on the following pages. They are all vigorous, healthy specimens, carefully cultivated, trimmed and root pruned, to insure proper root growth. We will deliver free to all points in Westchester County. Our guarantee means exactly what it says and we will back it to the limit. This catalog contains a larger and more complete selection of plants and varieties than we have previously offered and we hope that it will be the means of making many new friends.

H.C. Taylor

Proprietor

Guarantee

Any trees or shrubs purchased from us, at prices listed herein, which die within six months from date of delivery, will be replaced where care and attention has been given after planting. The customer to pay delivery charges and cost of planting. This guarantee does not cover losses due to conditions beyond our control, such as unusual droughts or severe Winter.

To secure privacy and to prevent the intrusion into the garden picture, of an unsightly building on an adjacent property, fully developed evergreens were used here to conceal its discordant features. We have a large collection of trees suitable for screening which we are offering at reduced prices.

Evergreen Trees

Three reasons why Rosedale Evergreens have become famous: (1) They are oft transplanted, to develop a mass of fibrous roots and compact growth. (2) Our expert system of packing. (3) Our soil is such that the burlapped ball will reach you in solid form

PSEUDOTSUGA · Douglas-fir Colorado Variety

The Douglas Spruce or Fir is the tree for the million. It would be difficult to over-rate its beauty. Its horizontal branches, with pendulous branchlets richly clothed with bright green foliage, render it a striking object in the landscape. The trees are hardy in Canada and endure both drought and cold. Those we planted at Lenox, Mass., in 1908, 1000 feet above sea level in the Berkshires, have stood that trying climate as well as the hardiest varieties known, and the foliage appears as bright and fresh in Spring as in Autumn.

The Opinion of an Eminent Authority

We quote from a most excellent article on evergreens by the late E. H. Wilson in the December (1915) *Garden Magazine*: "The Douglas-fir is one of the most valuable of all coniferous trees, and, from a horticultural viewpoint, one of the most indispensable. In the Arnold Arboretum, Boston, trees forty years of age are 50 feet and more tall and others about fifteen years old are 18 to 25 feet tall. The lower branches of these trees sweep the ground and the others incline upward and have a plumelike appearance. Either as a lawn tree, or for avenues, or for massing, the Douglas-fir is equally valuable and it needs no commendation."

The Douglas-fir will stand almost as much shade as the Hemlock and is unharmed by the severest winds.

PSEUDOTSUGA · Douglas-fir

	Each	10
2 to 3 ft.....	\$2.00	\$18.00
3 to 4 ft.....	3.00	25.00

 5 to 6 ft.....10.00
 Large specimens, 12 to 25 ft.\$25.00 to 100.00

Homolepis (Nikko Fir). Hardy, beautiful Fir from Japan. Dark green needles, silver on under side. *Each*
 4 to 5 ft.....\$5.00
 Specimens, 18 to 25 ft....\$80.00 to 100.00

JUNIPERUS • Juniper

All the Junipers are valuable ornamental plants—the upright species as single specimens or in groups and the low forms well adapted for rockery slopes or banks. Junipers thrive best in a sandy, loamy soil, moderately moist, but do well in rocky and gravelly soils in sunny, open situations.

Chinensis columnaris. A very hardy, spire-like evergreen with gray-green foliage. Highly recommended.

Each	Each
2 to 2½ ft...\$2.50	5 to 6 ft.....\$6.50
3 to 4 ft... 3.50	6 to 7 ft..... 8.00
4 to 5 ft... 4.50	7 to 8 ft..... 9.50

Chinensis pfitzeriana. A comparatively new form, exceedingly graceful and beautiful. It is a very rapid grower, and, like most Junipers, perfectly hardy. After many years' test we recommend it highly.

Each	Each
2 to 2½ ft. spread.....\$2.00	
2½ to 3 ft. spread..... 3.00	
3 to 3½ ft. spread..... 4.00

3½ to 4 ft... 5.00	6 to 7 ft....12.00
4 to 5 ft... 7.00	

Virginiana keteleeri. Named for a landscape architect in Paris. This comparatively new variety is never attacked by aphids or blight. It grows in pyramidal form and is of very pleasing light green color, which it maintains during Winter.

Each	Each
3½ to 4 ft...\$3.50	5 to 6 ft....\$7.00
4 to 5 ft... 5.50	6 to 7 ft....10.00

PICEA • Spruce

No group of evergreens is more widely used in landscape work than the Spruces, and many of them are among the most showy and rapid-growing of their class. Spruces will grow in almost any kind of moderately moist soil, and are easily transplanted.

Canadensis (White Spruce). A native tree of medium size, varying in height from 25 to 50 feet. It is of pyramidal form and very shapely in appearance.

Each Large specimens.....\$15.00 to \$150.00

Engelmanni (Engelmann Spruce). Resembles the familiar Colorado Blue Spruce. A compact grower and develops into a grand tree. Among the many sorts of Spruces, native and foreign, the Engelmann stands distinct.

Each	Each
2 to 3 ft...\$4.50	3½ to 4 ft...\$7.50
3 to 3½ ft... 6.00	

Excelsa (Norway Spruce). No evergreen is more generally planted than this because of its exceedingly rapid growth and extreme hardiness, which adapt it for shelter and massing for effect. It will grow 3 ft. annually when well established.

Each	Each
2 to 3 ft.....\$0.75	
3 to 4 ft..... 1.25	
4 to 5 ft..... 3.00	
Large specimens, 8 to 35 ft.\$12.00 to 175.00	

Glauca albertiana conica (Alberta Spruce).

A dwarf form of dense, narrow-conical habit, with thin, slender leaves.

Each	Each
4 to 6 in....\$1.00	12 to 15 in...\$3.00
6 to 9 in.... 2.00	

Orientalis (Eastern Spruce). The deep, glossy green foliage is smaller and more dense than that of the other Spruces and brighter and richer than that of the Norway Spruce. It is a tree of remarkable beauty. Our stock of this beautiful species is a wonder to all who visit us.

Each	Each
2 to 3 ft.....\$3.50	
Large specimens, 18 to 35 ft.\$80 to 250.00	

PINUS • Pine

The Pines are essentially inhabitants of poor, sandy soils and dry situations. Their stout root-systems enable them to seek scanty water supplies where other species find it difficult, and they thrive in any good soil.

Pinus excelsa.

Each	Each
4 to 5 ft.....\$5.00	

Mugho compacta, Hill's (Dwarf Mountain Pine). This compact variety of Mugho is now taking the place of the ordinary form. It forms a dense bush and keeps below 4 feet in height.

Each	Each
9 to 12 in. broad.....\$0.75	
12 to 15 in. broad..... 1.50	
15 to 18 in. broad..... 2.25	
18 to 24 in. broad..... 3.00	
2 to 2½ ft. broad..... 4.00	

PINUS—Continued

PINUS STROBUS (White Pine)

Nigra austriaca (Austrian or Black Pine).

This flourishes near the seacoast and on high, bleak hills or in cities where smoke and dust would prohibit the use of many other evergreens.

Each		Each	
3 to 3½ ft...	\$3.50	6 to 7 ft.....	\$8.00
4 to 5 ft...	5.00	7 to 8 ft.....	10.00
5 to 6 ft...	6.00		

Resinosa (Red Pine). Native in northeastern states and Canada. It is often planted in places where no other Pine will grow. Its luxuriant, dark green foliage and vigorous growth make it an important Pine for bold effects. Very hardy and adapts itself to many situations and soils.

Each		Each	
4 to 5 ft...	\$2.50	6 to 7 ft. heavy.	\$8.00
5 to 6 ft...	5.00	7 to 8 ft. heavy.	10.00

Strobus (White or Weymouth Pine). This is beautiful in every stage of its growth, from a seedling to a stately tree of 150 ft. Whether we consider its economic importance, its adaptability to climate and soil, or its ornamental use, we must give it chief place among our native Pines. No other evergreen fulfills so well the requirements for rapid growth, beauty, and harmony in the landscape and quick effect as a screen, and none transplants more easily. Our large specimens, 35 ft. high and 18 ft. broad, may be moved with perfect safety.

Each		Each	
4 to 5 ft....	\$3.00	7 to 8 ft.....	\$8.00
5 to 6 ft....	4.00	8 to 9 ft....	12.00
6 to 7 ft....	5.50	9 to 10 ft....	16.00
Specimens, 12 to 40 ft....		\$25.00 to 250.00	

RETINOSPORA · Chamaecyparis

Retinosporas thrive best in moist soils and situations not too much exposed to Wintry gales.

Filifera. Very graceful, with its long, drooping tips, ending in slender tassels. The color is a most beautiful deep green. *Each*

2½ to 3 ft.....	\$3.50
3 to 4 ft.....	5.00
4 to 5 ft.....	7.50
Larger specimens.....	\$15.00 to 60.00

Filifera aurea. Golden variety of the preceding, and the most graceful of all the Retinosporas. It is scarce and expensive. Pure golden foliage Winter and Summer. *Each*

2 to 2½ ft.....	\$3.00
Specimens, 10 to 15 ft.....	\$30.00 to 60.00

Obtusa gracilis. Beautiful, compact form, graceful in habit, with rich dark green, lace-like foliage. *Each*

3 to 3½ ft.....	\$3.75
Large specimens.....	\$18.00 to 75.00

Obtusa nana compacta. Very dwarf, dark green, irregular foliage. Extremely interesting plant for rockwork or low planting. *Each*

10 to 12 in.....	\$2.50
------------------	--------

Pisifera. Fine, leathery foliage; delicate branches. *Each*

3 to 4 ft....	\$2.50	5 to 6 ft.....	\$5.50
4 to 5 ft....	4.00		

Pisifera aurea. A beautiful golden form with the same delicate foliage as R. pisifera. Growth tessellated and very wavy; vigorous habit. One of the best. *Each*

3½ to 4 ft.....	\$2.00
4 to 5 ft.....	3.50
5 to 6 ft.....	5.50

Plumosa. Light green, soft, feathery, plume-like foliage. Very graceful habit. *Each*

2½ to 3 ft...	\$1.00	3½ to 4 ft....	\$2.50
3 to 3½ ft...	1.50	4 to 5 ft....	3.50
Large specimens.....		\$35.00 to 125.00	

Squarrosa veitchi. A handsome, glaucous tree of striking appearance and color. *Each*

3 to 3½ ft...	\$1.50	4 to 5 ft.....	\$5.00
3½ to 4 ft...	2.50		

TAXUS · Yew

The Yews are very desirable evergreens, densely clothed with dark green foliage. They thrive best in a moderately moist, sandy loam, and endure shade well.

Baccata repandens. This dwarf, spreading form with its beautiful foliage and graceful, drooping branches is unique among evergreens. *Each*

15 to 18 in. broad.....	\$1.50
2 to 2½ ft. broad.....	4.00

Canadensis. This Canadian Yew has the same habits as T. baccata repandens. The foliage is lighter green. *Each*

12 to 18 in... \$1.50	18 to 24 in... \$2.50
-----------------------	-----------------------

TAXUS—Continued

Cuspidata (Japanese Yew). Dense, spreading habit. Deep green foliage. Especially useful near the house. Very hardy. <i>Each</i>			
15 to 18 in. spread.....	\$1.25		
18 to 24 in. spread.....	2.00		
2 to 2½ ft. spread.....	3.00		
2½ to 3 ft. spread.....	4.50		
3 to 3½ ft. spread.....	7.00		
Cuspidata brevifolia . Dwarf, compact, and very hardy. <i>Each</i>			
12 to 15 in... \$1.25		18 to 24 in... \$3.00	<i>Each</i>
15 to 18 in... 2.00		2 to 2½ ft... 5.00	
Larger specimens.....	\$15.00 to 25.00		

Cuspidata capitata (Upright Japanese Yew). Upright tree form of *T. cuspidata*. Very desirable for foundation planting as it is of slow growth. Best of evergreen hedges. *Each*

2 to 2½ ft.....	\$3.00
2½ to 3 ft.....	4.00
3 to 3½ ft.....	5.00
Specimens, 5 to 6 ft.....	\$16.00 to 20.00

Stock unusually heavy.

THUJA · Arborvitae

Ornamental evergreen trees of narrow, pyramidal habit. They are favorites for formal gardens because of their regular, symmetrical habit. Adapted for hedges and windbreaks. Thrive best in a somewhat moist, loamy soil; easily transplanted.

Occidentalis (American Arborvitae). Beautiful native tree, commonly known as White Cedar. Especially useful for hedges and screens. *Each*

3 to 4 ft.... \$1.25	5 to 6 ft.... \$3.00
4 to 5 ft.... 2.50	6 to 7 ft.... 5.00
Specimens.....	\$12.00 to 35.00

PYRAMIDAL ARBORVITAE

Occidentalis pyramidalis (Pyramidal Arborvitae). The deep green color and upright pyramidal form of this species render it conspicuous in contrast with other evergreens. It is very hardy and vigorous. This particular Arborvitae we highly recommend for an evergreen hedge. *Each*

3 to 4 ft.... \$1.25
4 to 5 ft.... 2.50
5 to 6 ft.... 4.00

Occidentalis sibirica. This forms a beautiful, compact specimen without shearing. Foliage is full and of a peculiar dark green color throughout the year. *Each*

2½ to 3 ft.....	\$3.00
3 to 3½ ft.....	4.00

Occidentalis spiralis. Compact tree, with upright branches and short, close set branchlets clothed with beautiful dark foliage. *Each*

3 to 4 ft.....	\$3.00
4 to 5 ft.....	4.50

Occidentalis woodwardi. Dense, globe-shaped variety which maintains its shape without shearing. The foliage is a pleasing sea green in Summer; in Winter, bronze. Perfectly hardy. Grows about 3 ft. high. *Each*

15 to 18 in... \$1.00	24 to 30 in... \$2.50
18 to 24 in... 1.50	

TSUGA · Hemlock

We still have a magnificent stock of Hemlocks, notwithstanding the fact that this tree has been so scarce that we have supplied landscape architects and purchasers from Philadelphia to Boston. Of the larger sizes, we have a number of specimens worth from \$75.00 to \$250.00. We also have a fine stock of smaller sizes up to 5 to 6 feet.

The extensive use of this noble tree may be judged by the fact that it is one of our three best sellers, the other two being Douglas-fir and White Pine.

Canadensis. A handsome ornamental tree growing 70 to 100 ft. high. Dark green foliage. Hardy as far north as Canada. *Each*

	10
2½ to 3 ft.....	\$1.35 \$12.00
3 to 3½ ft.....	1.75 15.00
3½ to 4 ft.....	3.00 28.00
4 to 5 ft.....	4.50 40.00
5 to 6 ft.....	6.00 50.00
6 to 7 ft.....	8.00
7 to 8 ft.....	9.00

Large specimens, 10 to 35 ft. \$25.00 to 250.00

Special prices on large quantities for naturalistic planting or hedges. Ask for quotation, stating quantity needed.

Caroliniana (Southern Hemlock). Native of the mountains of the Southern States and perfectly hardy here in the North. A beautiful tree with dark green foliage and a habit of growth which makes it distinctly different from our Canadian Hemlock. *Each*

	Each	Each
4 to 5 ft.... \$5.00		7 to 8 ft... \$12.00
5 to 6 ft.... 7.50		8 to 9 ft... 15.00
6 to 7 ft.... 9.00		9 to 10 ft... 25.00

We suggest replacing Winter injured Privet hedges with all year evergreen hedges of Arborvitae, Hemlock, Japanese Yew, etc.

An attractive group planting of Broad-leaved Evergreens, giving continuous bloom for a long period and a glossy green effect the entire year.

Broad-leaved Evergreens

No class of plants when well grown gives more satisfaction than the Broadleaved Evergreens. They are beautiful at all seasons of the year. Not only does this class include the most gorgeous flowering plants, but the foliage of some in Winter is even more beautiful than in Summer, especially the Leucothoe and Mahonia, whose leaves take on the finest shades of red from bronze to intense scarlet. Our nursery is especially well supplied this year with both large and small sizes of Leucothoe, Mahonia, Mountain-laurel, and Rhododendron. All of these plants are native to America.

AZALEA

Amoena. Bright rosy purple flowers in great profusion in May. *Each*
15 to 18 in. \$1.25
18 to 24 in. 3.00

Hinodegiri (Evergreen Azalea). Flowers bright red. A great improvement on the color of Azalea amoena. *Each*
10 to 12 in. spread. \$2.00
12 to 15 in. spread. 2.50
15 to 18 in. spread. 3.50
18 to 24 in. spread. 5.00

Indica, J. T. Lovett. Brilliant carmine like blooms. Foliage deep green with metallic shadings. Blooms late. *Each*
2 to 2½ ft. \$6.00

Kurume, Flame. Bright madder red with copery suffusion; glossy green foliage. *Each*
10 to 12 in. \$1.75

Macrantha. Large, single, salmon red flowers. Very late. Glossy foliage. *Each*
2 to 2½ ft. \$5.00

Mollis. Flowers in shades of yellow, terra cotta, apricot and golden salmon. *Each*
15 to 18 in. ... \$1.50 | 18 to 24 in. ... \$2.50

BERBERIS • Mahonia

Aquifolium (Hollyleaved Mahonia). Beautiful at all seasons of the year. In Winter the prickly, shiny, purplish leaves turn to the finest bronze and crimson. Very desirable with Rhododendrons and Laurel.

<i>Each</i>	<i>Each</i>
15 to 18 in. ... \$1.00	2 to 3 ft. \$3.00
18 to 24 in. ... 1.50	3 to 4 ft. 6.00

DAPHNE

Cneorum (Garland Flower). Low growing evergreen shrub with clusters of very sweet-scented pink flowers in May and August. Fine for rock gardens. *Each*

9 to 10 in. spread. \$0.90
12 to 15 in. spread. 1.25
15 to 18 in. spread. 1.75

ILEX • Holly

Crenata. Rapid grower. Smooth green leaves. *Each* | *Each*
2½ to 3 ft. ... \$4.00 | 3 to 3½ ft. ... \$5.00

Glabra. Upright, bushy. Dark green leaves. Black berries. *Each*
1½ to 2 ft. \$2.50

KALMIA

Latifolia (Mountain-laurel). Thrives in any good soil that is not impregnated with lime and grows well in either sun or shade. Glossy green leaves the entire year. Masses of showy flowers in June.

<i>Nursery-grown Specimens.</i>	<i>Each</i>	<i>10</i>
1 to 2 ft.....	\$2.00	\$15.00
2 to 3 ft.....	3.00	25.00

Deciduous Flowering Shrubs HARDY NATIVE AZALEAS

AZALEA calendulacea (Flame Azalea). A brilliant flowering shrub with clusters of yellow and orange flowers in June. Thrives in full sun or half shade. 2 to 2½ ft..... \$2.75

A. nudiflora (Pinxterbloom). A hardy native variety flowering in varying shades of pink. 18 to 24 in..... 1.75

A. vaseyi (Pinkshell Azalea). Most handsome of all native Azaleas. Shell pink flowers in May. Foliage turns deep crimson in Fall. 2 to 2½ ft.... 3.25

Flowering Trees

There are more than a dozen Flowering Trees that will provide a wealth of exquisite blossoms in the Spring. Between the sturdy loveliness of the native Dogwood and the exotic daintiness of the Japanese Cherry, there is infinite variety of color, form, and fragrance. A planting of flowering trees is an investment in ever-increasing beauty.

CORNUS (Dogwood)

CERCIS · Redbud; Judas-tree

Canadensis (American Judas-tree). A desirable ornamental specimen with large, heart-shaped leaves and bright pink flowers arriving before the foliage appears. May be used in the shrub border.

	Each
2 to 3 ft.....	\$1.00
3 to 4 ft.....	1.50
4 to 5 ft.....	2.75

Japonica (Doubleflowering Japanese Redbud). A dwarf, doubleflowering sort of the above.

	Each	Each
2 to 3 ft.....	\$2.25	3 to 4 ft.....\$3.50

CRATAEGUS · Hawthorn

Coccinea (Thicket Hawthorn). White flowers in May, followed by red fruits which are retained until late Fall.

	Each	10
4 to 5 ft.....	\$2.00	\$18.00
5 to 6 ft.....	3.00	25.00

Oxyacantha. Tree with spreading branches and stout spines. Single, white, sweet-scented flowers, rarely pink. Scarlet fruit.

	Each	Each
4 to 5 ft.....	\$1.75	5 to 6 ft.....\$2.50

Oxyacantha splendens (Paul's Scarlet Thorn). Double scarlet flowers. Late Spring bloomer. One of the finest.

	Each	10
4 to 5 ft.....	\$1.75	\$15.00
5 to 6 ft.....	2.50	20.00

CORNUS · Dogwood

Florida (White Dogwood). A native flowering tree attaining about 20 ft. in height at maturity and producing a wealth of single white flowers before the leaves appear. The foliage is deep green turning a brilliant red in the Autumn.

	Each		Each
2 to 3 ft.....	\$1.00	6 to 7 ft.....	\$5.00
3 to 4 ft.....	1.50	7 to 8 ft.....	6.00
4 to 5 ft.....	2.25	8 to 10 ft.....	7.50
5 to 6 ft.....	3.00		

Florida rubra (Pink or Red Dogwood). Similar to our native white Dogwood in habit and form but with masses of pink flowers.

	Each		Each
2 to 3 ft.....	\$1.50	5 to 6 ft.....	\$6.00
3 to 4 ft.....	3.00	6 to 7 ft.....	8.00
4 to 5 ft.....	4.50		

Kousa (Japanese Dogwood). A Japanese tree with dense branches more shrublike than American Dogwood. Creamy white flowers in July with conspicuous scarlet fruits attractive to birds.

	Each
2 to 3 ft.....	\$2.00
3 to 4 ft.....	3.50
4 to 5 ft.....	4.75

MALUS · Flowering Crab

Atrosanguinea (Carmine Crab). A very showy variety with rich red blossoms. Considered the best of the Flowering Crabs.

	Each		Each
3 to 4 ft....	\$1.25	5 to 6 ft.....	\$4.00

Floribunda. A single, rose pink variety bearing an abundance of fruit even when young.

	Each		Each
3 to 4 ft.....	\$1.00	5 to 6 ft.....	\$3.25
4 to 5 ft.....	2.00		

Ioensis bechteli (Double Pink Crab). A very fine variety with double pink flowers resembling a miniature Rose. Makes a shapely, compact tree.

	Each
4 to 5 ft.....	\$2.00
5 to 6 ft.....	2.50

Scheideckeri. Similar to M. floribunda, with double pink flowers and yellow fruit. Flowers last well.

	Each
3 to 4 ft.....	\$1.00
4 to 5 ft.....	2.00
5 to 6 ft.....	3.00

SORBUS · Mountain-ash

Aucuparia (European Mountain-ash). Well-formed tree with small leaves and bearing large clusters of orange red berries.

	Each	10
6 to 8 ft.....	\$2.50	\$22.50
8 to 10 ft.....	3.50	30.00
10 to 12 ft.....	5.00

WISTERIA

Treeform. Rosedale has for many years made a specialty of Wisterias trained into Treeform. The Grapelike clusters of lavender flowers are borne in profusion seldom seen on the vine, due to the severe pruning which is necessary to create the tree form.

Each	Each
2 to 3 ft.....\$.25	4 to 5 ft.....\$5.50
3 to 4 ft..... 3.00	5 to 6 ft..... 8.00
Larger specimens.....	\$10.00 to 15.00

MAGNOLIA

Soulangeana. Pink.	Each
3 to 4 ft.....	\$5.00
Specimens, 8 to 9 ft.....	15.00
Stellata. White.	Each
2 to 3 ft.....	\$5.00
Nigra purpurea. Purple.	Each
3 to 4 ft.....	\$5.00
Lennei. Red.	Each
3 to 4 ft.....	\$6.50

OXYDENDRON

Arboreum (Sorreltree). A comparatively dwarf tree bearing an abundance of white flowers in Midsummer. The foliage turns several shades of red and crimson in Fall. Seldom seen in the Fall without being admired.

Each	Each
3 to 4 ft.....\$2.50	5 to 6 ft.....\$6.00
4 to 5 ft..... 4.00	8 to 9 ft..... 8.00

PEACH

Double Redflowering. One of the prettiest sights in Spring when covered with its red blooms.

4 to 5 ft.....	\$1.00
----------------	--------

JAPANESE FLOWERING CHERRIES

PRUNUS

Flowering Cherries and Plums

Subhirtella pendula (Japanese Weeping Cherry). A pendulous form of well known Flowering Cherries so admired at Washington, D. C. Bears a profusion of single pink flowers in early Spring.

5 to 6 ft., 2 yr. heads.....	<i>Each</i> \$2.50
5 to 6 ft., 3 yr. heads.....	4.00
Large specimens.....	15.00

JAPANESE UPRIGHT CHERRY

Serrulata spectabilis rosea

Fugenzo. Double, rose pink flowers in early Spring.

Kwanzan. Large, double, pink flowers. Vigorous; quick growing.

Shirotae. Pure white, double flowering Cherry.

Yoshino. Fragrant, white flowers in clusters; early Spring.

<i>All Japanese Upright Cherries.</i>	Each
4 to 5 ft.....	\$2.50
5 to 6 ft.....	4.00

Triloba plena (Flowering Plum). Bright pink, double, quilled flowers in early Spring.

3 to 4 ft.....	\$1.00
----------------	--------

ROSEDALE TREE SERVICE

The care of your trees is most important for they are indeed valuable property. You can only find out just how valuable when one is lost and you try to replace it. To keep your trees in a vigorous and healthy condition they must be sprayed, pruned and fed regularly. Our Tree Service is especially prepared to do this work at a nominal cost per tree. Our skilled operators will inspect, recommend and execute necessary repairs. Call us and we will gladly inspect your trees and make our recommendations. You will be surprised at the small expenditure necessary to keep your trees in perfect condition.

Shade Trees

At Rosedale we grow especially good Shade Trees. The soil insures good root systems, which are retained when the trees are dug. We allow room in the nursery for proper development of trunk and top, and grow only the trees that succeed under conditions in our selling territory. Our list of varieties includes trees for almost every purpose.

ACER • Maple

The Maples are universally popular. They have attained this reputation because they are regular in outline, vigorous growers, beautiful in foliage, and adapt themselves to almost any soil. The Norway Maple is one of the best and most largely used of the Maples. It is especially desirable for street planting, thrives well near the sea and is one of the hardiest and most easily transplanted of them all. (In very wet soil use Planetree).

- Palmatum atropurpureum** (Redleaved Japanese Maple). A comparatively dwarf Maple, slow in growth and attaining ultimately about 20 ft. in height. Bright red foliage and branches. These are exceptionally well grown specimens. *Each*
- | | |
|----------------|--------|
| 2 to 3 ft..... | \$5.00 |
| 3 to 4 ft..... | 7.50 |
| 4 to 5 ft..... | 10.00 |

ACER (Maple)

- Platanoides** (Norway Maple). Foremost of the Maples because of its regular outline, wide spreading branches and deep green foliage which is retained well after the first heavy frosts. *Each*
- | | |
|--|-------------------|
| 1¾ to 2 in. caliper..... | \$4.50 |
| 2 to 2½ in. caliper..... | 6.00 |
| 2½ to 3 in. caliper..... | 8.00 |
| 3 to 4 in. caliper..... | 12.00 |
| 4 to 5 in. caliper..... | 22.50 |
| Larger specimens, 6 to 12 in. caliper. | \$40.00 to 125.00 |

- Platanoides schwedleri** (Schwedler's Maple). A variety of Norway Maple having red leaves until Midsummer. *Each*
- | | |
|--|-------------------|
| 1¼ to 1½ in. caliper..... | \$3.50 |
| Large specimens, only 6 to 12 in. caliper..... | \$50.00 to 150.00 |

- Saccharum** (Sugar Maple). A beautiful tree of upright form. Attains a greater height than the Norway Maple and colors yellow and red in Fall. *Each*
- | | |
|---------------------------------------|-------------------|
| 2½ to 3 in. caliper..... | \$6.00 |
| 3 to 3½ in. caliper..... | 10.00 |
| Large specimens, 6 to 14 in. cal..... | \$50.00 to 200.00 |

BETULA • Birch

- Alba** (European White Birch). A very handsome white-barked tree usually seen growing in clusters. Especially effective in Winter against a background of evergreens. *Each*
- | | | | |
|----------------|--------|-----------------|--------|
| 6 to 8 ft.... | \$2.00 | 10 to 12 ft.... | \$5.00 |
| 8 to 10 ft.... | 3.00 | | |
- Collected clumps. Prices on application.

- Alba purpurea** (Purpleleaved White Birch). *New.* Good form with dark purplish foliage, white bark. *Each* *Each*
- | | | | |
|----------------|--------|---------------|--------|
| 5 to 6 ft..... | \$4.00 | 6 to 8 ft.... | \$6.00 |
|----------------|--------|---------------|--------|

FAGUS • Beech

- Sylvatica** (European Beech). For a screen or hedge, this Beech is ideal among deciduous trees. It gives nearly as much screen in Winter as in Summer, owing to the fact that the dead leaves persist in Winter. As it bears the shears well, it may be kept within bounds for hedge purposes and grows as dense as any hedge. We have a fine lot of these trees, about 12 to 14 ft. high, that would give an immediate effect. They may be handled with ball and burlap, although it would not be as necessary as the roots have been well developed from occasional root-pruning. *Each*
- | | |
|----------------|--------------------|
| Specimens..... | \$10.00 to \$65.00 |
|----------------|--------------------|

LARIX • Larch

- Decidua** (European Larch). One of the most handsome trees in Spring. Foliage like a soft evergreen. Loses its needles in Winter. *Each*
- | | |
|-----------------|--------|
| 8 to 10 ft..... | \$6.00 |
|-----------------|--------|

POPULUS • Poplar

- Caroliniana** (Carolina Poplar). *Each*
- | | |
|--|--------|
| 10 to 12 ft..... | \$2.00 |
| Fastigiata (Lombardy Poplar). <i>Each</i> | |
| 8 to 10 ft..... | \$1.50 |
| 10 to 12 ft..... | 2.00 |
- Quantity prices on application.

QUERCUS • Oaks

The Oaks, especially when they attain size, are the most picturesque of all trees, symbolizing strength and durability. Their reputation as slow growers is not warranted, for, when once established, they will make a yearly growth equal to that of almost any other species.

Palustris (Pin Oak). A superb and distinct tree, the Pin Oak's graceful, drooping branches support a mass of deeply lobed, sharply pointed leaves, changing to deep red in Autumn. Jack Frost has never shown greater skill than in the coloring he produces in the Pin and Scarlet Oaks.

Each

1½ to 2 in. caliper.....\$7.00

2 to 2½ in. caliper..... 9.00

2½ to 3 in. caliper.....15.00

3½ to 4 in. caliper.....22.50

Rubra (Red Oak). *Each*

1½ to 2 in. caliper.....\$7.00

Large specimens.....\$50.00 to 150.00

Coccinea (Scarlet Oak). *Each*

1½ to 2 in. caliper.....\$7.00

SALIX • Willow

Babylonica (Weeping Willow). *Each*

8 to 10 ft.....\$2.25

10 to 12 ft..... 3.50

TILIA • Linden

Extensively planted as an ornamental tree. Nearly all the species are of rapid growth and not very particular as to soil. They are handsome, upright, and regular in shape. The flowers have a pleasant odor.

Americana (American Linden). Especially noted for its great vigor, large, heart-shaped leaves and very fragrant flowers in June. No flowers produce so delicious a honey as those of the American Linden.

Each

12 to 15 ft...\$8.00

Each

15 to 18 ft...\$15.00

Large specimens.....\$25.00 to 100.00

QUERCUS PALUSTRIS (Pin Oak)

Argentea (Whiteleaved or Silver Linden). Beautiful as lone specimens. Broad, shapely habit; leaves almost white beneath. A native tree not of the largest size but with the most beautiful flowers of all the Linds.

Each

Specimens.....\$10.00 to \$100.00

Platyphyllos (Broadleaved Linden). Vigorous, ornamental, select tree of very rapid growth and handsome, symmetrical form, making a splendid specimen and shade tree.

Each

Specimens.....\$10.00 to \$30.00

Tomentosa pendula (Weeping Silver Linden). Especially graceful tree with handsome foliage silvered on the underside.

Each

Specimens, 20 to 25 ft...\$35.00 to \$100.00

Vulgaris (Small-leaved European). *Each*

1½ to 2 in. caliper, 10 to 12 ft.....\$7.00

ULMUS • Elm

Americana (American Elm). As the Oak is pre-eminent in dignity and majesty, the Elm is pre-eminent in grace and elegance. The graceful, umbrella-shaped top, borne high above the other trees, always adds to the landscape picture. It is not particular as to soil and makes a delightful shade as it does not branch low.

Each

2½ to 3 in. caliper.....\$6.00

3 to 3½ in. caliper..... 9.00

3½ to 4 in. caliper.....15.00

4 to 8 in. caliper.....\$25.00 to 100.00

Pumila. A rapid growing tree with slender, drooping branches. Fine for street planting, and thrives in barren positions in both drought and heat.

Each

2 to 2½ in. cal., 8 to 10 ft.....\$6.00

2½ to 3 in. cal., 10 to 12 ft..... 8.00

TILIA (Linden)

Hardy Perennials

Strong, field-grown plants, 25c. each, \$2.50 per doz., except as noted

Achillea eupatorium. Flat heads of brilliant yellow flowers.

Aconitum napellus (Monkshood). Dark blue.

Aconitum sparki. Dark blue.

Aquilegia, Mixed (Mrs. Scott Elliott's Hybrids). Long spurred, all colors.

Armeria formosa Hybrids. Shades of pink.

Artemisia lactiflora. Small white flowers.

Astilbe. Pink.

Astilbe. White.

Baptisia australis. Indigo blue.

Cerastium tomentosum. White flowers.

Chelone lyoni. Purplish red.

Chrysanthemum. Yellow.

Clematis recta. Pure white flowers in showy clusters.

Coreopsis. Yellow. 15c. each, \$1.50 per doz.

Delphinium Belladonna. Clear light blue.

Delphinium Bellamosa. Dark blue.

Delphinium, Vanderbilt Hybrids. All colors. 30c. each, \$3.00 per doz.

Dianthus (Hardy Pink).

Funkia caerulea lanceolata. Blue flowers.

Gaillardia, The Dazzler. Golden yellow, crimson center.

Golden Loosestrife. Yellow.

Helenium rubrum. Bronze.

Hemerocallis flava (Lemon Lily). Clear full yellow.

Hemerocallis kwanso. Rich golden bronze flowers.

Hemerocallis thunbergi. Pale yellow.

Heuchera sanguinea album. White flowers.

Lily-of-the-valley. White.

Lupines, Downer's Hybrids. All colors.

Lychnis chalcedonica. Vivid scarlet flowers.

Monarda didyma. Red.

New England Aster. Rose.

New England Aster. Purple.

Oenothera youngi. Yellow.

Oriental Poppy. Orange.

Pentstemon barbatus torreyi. Scarlet flowers. 15c. each, \$1.50 per doz.

Platycodon grandiflora. Blue.

Platycodon grandiflora alba. White.

Physostegia virginica. Delicate pink.

Physostegia virginica alba. Pure white.

Pyrethrum. Mixed, all colors.

Rudbeckia purpurea (Giant Purple Cone-flower). Purple flowers with very large, cone-shaped center.

Saxifraga megasea cordifolia. Pink flowers.

Sedum spectabile. Rose color.

Shasta Daisy. White.

Stokesia cyanea. Lavender flower.

Thalictrum aquifolium. White.

Thalictrum glaucum. Chinese yellow.

Thermopsis caroliniana. Yellow flower, similar to the Lupin.

Thymus serpyllum. Purple lilac bloom.

Tradescantia virginiana (Jobs-tears). Blue.

Veronica spicata. Dwarf, violet blue.

FLOWERING SHRUBS

Note—We have, in addition to sizes priced below, in most varieties, large specimens that are broad, bushy, and have a fine root system, developed from frequent transplanting. Our customers have found that these large shrubs can be as safely moved as the smaller sizes. They range in size from 4 to 10 feet. Write for prices. An old customer writes concerning his order of very large shrubs. "What splendid fibrous root systems the shrubs you sent me all had! You have reason to be proud of such stock."

Bearing-Size and Early-to-Bear Fruit Trees

LARGE SELECTION

We offer a well-tested list of Fruit Trees at the lowest prices at which Rosedale transplanted trees have ever been sold. Many varieties 4 to 8 years old are already bearing fruit. A mass of fibrous roots insures success in transplanting. Smaller sizes for those who prefer to wait.

STANDARD APPLES

	No. 1 Grade	2 yr. 1 in. caliper	5 yr. Over 1 in. caliper	Bearing Age 7-10 yrs. 1½-2 in. cal.
Baldwin. Bright red. Very productive.....	\$0.75		\$2.50

Wealthy. Dark red and yellow; flesh white. Subacid. Oct..	.75		2.50	6.00
Yellow Transparent. Skin pale yellow. Subacid. Aug.....	.75		2.50

DWARF APPLES

Our Dwarf Apples are budded on Doucin stock and eventually attain a height of 12 to 20 feet, according to the varieties, soil, etc. They may be planted from 12 to 20 feet apart. They are incomparably better than trees grafted on Paradise stock, which dwarfs the trees to mere babies capable of bearing but few fruits, even at maturity.

Dwarf Fruit Trees come quickly into bearing, take up little room, are easily pruned and sprayed, and are especially recommended for the small garden and as fillers in orchards of standard trees.

	No. 1 Grade 2 yr. old ¾ in. cal. and over	5 yr.	6-10 yrs.
Baldwin	\$1.00

R. I. Greening	1.00	3.00	7.00
Wealthy	1.00	7.00
Yellow Transparent	1.00	3.00	7.00

CHERRIES

Budded on Mazzard stock, which is conceded by commercial growers to be the finest for productiveness.

All varieties, 2-yr.-old, No. 1 Grade, \$1.00 each, \$8.00 for 10

SWEET VARIETIES

Black Tartarian. Vigorous grower. Large, black fruit; juicy; sweet. Early.
Governor Wood. Vigorous grower. Medium sized fruit. Red; delicious. Early.
Napoleon Bigarreau. Bright red, large fruit. Ripens early.
Schmidt's Bigarreau. Purplish red. Ripens early. Popular.

SOUR VARIETIES

English Morello. Very dark red. Ripens early.
Montmorency. A large, red, acid fruit. Very productive and easy to grow.

PEACHES

No garden is too small to have at least one Peach tree. Peaches come into bearing from the second to the fourth year and bear enough the fourth year and thereafter to make them well worth while. And what a luxury when they are ripened on the tree !

All varieties, first-class, selected trees, 1-yr., 4 to 6 ft., very fine, 60c. each, \$5.00 for 10

- Belle of Georgia. Flesh white. Midseason.
- Carman. Pale yellow, with deep blush. August.
- Champion. Large, splendid red and white.
- Crawford's Late. Superb yellow Peach. Mid-September.
- Elberta. Flesh yellow, juicy. Ripens between Crawford Early and Late.
- J. H. Hale. Large. Early September. Yellow.

PEARS

We offer a list of well-tested Pears. In addition to the 2-year-old trees usually sold, we offer in most varieties 4- and 5-year transplanted trees. These extra size trees, having well-developed roots, will soon come into bearing. In fact, some of them have borne fruit in the nursery the past year.

Dwarf Pears are those budded on Quince stock and are particularly desirable for gardens. Many fruit growers find them profitable for market. Like the Dwarf Apples, they are easy to prune and spray, and the fruit is easily gathered. Orchardists find a combination of dwarfs and standards profitable.

	Standard 2 yr. old No. 1	Standard 5 to 7 ft. XX trans.	Dwarf 2 yr. old No. 1
Bartlett. One of the best known Pears. Early Sept.....	\$0.75	\$1.50	\$0.75
Clapp's Favorite. Resembles Bartlett, ripens a few days earlier	.75	1.50	.75
Bosc. Large, russety Pear. Unsurpassed.....	.75	1.50
Seckel. Strong grower and good bearer.....	.75	1.50
Sheldon. Large, round, russet; very juicy, melting and vinous.	.75	1.50

PLUMS

If purchasers of fruit trees knew how delicious Plums are when picked ripe from the tree, nurserymen would need largely to increase their stock of these fruits. Occasionally visitors at the nursery say to us they do not wish to buy Plum trees, as the fruit is so sour. The reason for this is that their experience has been with fruit purchased at the store and picked long before it was ripe. No fruit herein listed is sweeter than Plums, well ripened on the tree.

	No. 1 Grade 2 yr. old	• 5 yr. Ready to bear XX trans.
SELECTED FIRST-CLASS		
Abundance. Large; amber; sweet. Early.....	\$0.75	\$2.50
Burbank. Cherry-red. Good producer. Early.....	.75	2.50
German Prune. Dark purple. A great favorite. Late.....	.75	2.50
Imperial Gage. Yellowish green. Flesh rich and sweet. Very productive. Mid-August.....	.75	2.50
Shropshire Damson. Dark purple. Excellent for preserving.....	.75	2.50
Yellow Egg. Yellow Plum. Last of August.....	.75	2.50

QUINCES

Quince trees are both useful and ornamental. When covered with beautiful blossoms in the Spring they are most ornamental and the delicious jellies made from their fruit are very valuable.

- All varieties, 2-yr.-old, No. 1 Grade, 75c. each, \$6.00 for 10, 3 yr., \$1.00 each
- Orange. Large, round, golden yellow. October.
- Rea's Mammoth. Large, fine variety of the Orange Quince. Vigorous and productive.

HARDY GRAPES

All varieties, first-class, 2-yr., 30c. each, \$2.00 for 10; 3-yr., transplanted, 50c. each, \$4.00 for 10

- Caco. Red, large, fine flavor.
- Concord. Best known and most successful Grape in this section. Blue-black.
- Worden. Seedling of Concord but ripens ten days earlier and is superior in flavor.
- Brighton. Early, vigorous and productive Red.
- Delaware. Sweet and vinous. Red.
- Niagara. Pale green, sweet, ripens with Concord.

DOUBLE LILAC

FRENCH HYBRID LILACS

Almost everybody knows and loves the old-fashioned purple Lilac, but only a few know how exquisitely lovely the French Hybrids are. They are just as easy to grow, and bloom when they are even younger. The flowers are relatively huge, and are borne in enormous clusters, sometimes six or seven clusters combined in one great truss. We list fifteen single and double kinds in a complete range of color.

Belle de Nancy. Double, rose lilac.

Charles Joly. Double, crimson purple.

Charles X. Single, bluish violet.

Congo. Single, dark ruddy purple.

Jan Van Tol. Single, pure white.

Katherine Havemeyer. Double, light violet.

Marie Legraye. Single, creamy white.

Miss Ellen Willmott. Double, pure white.

Mme. Casimir-Perier. Double, white.

Mme. Lemoine. Double, snow white.

Mrs. Edward Harding. Double, reddish purple.

Philemon. Single, pale purple.

President Fallieres. Double, pale lavender.

President Grevy. Double, soft bluish lilac.

Souv. de Ludwig Spaeth. Single, crimson purple.

All Hybrid Varieties: Each
2 to 3 ft. plants, budded and dug with
ball of earth.....\$1.00
3 to 4 ft..... 1.50
Larger plants up to 8 ft. available in some
varieties.

Vulgaris (Common Purple Lilac). The old-fashioned, fragrant kind.

2 to 3 ft., each. \$0.75 | 3 to 4 ft., each. \$1.00

Vulgaris alba (Common White Lilac). Charming old variety. Very sweet.

2 to 3 ft., each. \$0.75 | 3 to 4 ft., each. \$1.00

High Spots of the Peony World

For over 25 years Peonies have been a leading specialty at Rosedale. Hundreds of varieties have been tested, and we now offer the following list of varieties, which have stood the test.

Size of Plants—We offer 3 sizes; 3 to 5 eye divisions, 1 year, 2 year, with a balanced root system. We recommend one and two year sizes for immediate results.

Culture—Peonies are extremely easy to grow, and stand shipping and handling better than most Perennials. They like rich, deep loam with an abundant supply of moisture. Do not use fresh manure near roots. Plant in September or October; cover eyes not over 2 inches.

Two-year plants are available only in the varieties marked *. For prices of 2-year size, double the price of divisions. Postage prepaid east of Mississippi on orders of \$2.00 or more. Add postage as indicated on special collections.

DOUBLE PEONIES

3-5 eye 1 yr.

Adolphe Rousseau. 8.5. Glossy, purplish garnet; one of the darkest, very large, semidouble. \$0.75 \$1.00

Popular Priced German Iris

Our extensive stock of these popular plants, makes possible the largest plant at the lowest price. Recent introductions are included at popular prices. Postage prepaid on orders of \$2.00 or more east of the Mississippi, except on special offers.

German Iris like plenty of sun and well drained soil. Early Fall planting gives best results. Plant so that the rhizome or bulb is level with the surface of the ground and firm the soil well.

Numerals following names indicate ratings by American Iris Society. S. means standards or upper petals; F. means falls or lower petals.

Our knowledge of plants and our experience in handling them make us the logical people to consult when you are considering planting. We are prepared and equipped to give you a complete landscape service, from designing to planting, grading and seeding. Our stock is most inclusive, from material for the perennial garden to large trees for immediate effect. During the past 33 years we have planted hundreds of homes and estates to the entire satisfaction of their owners.

JAPANESE IRIS

The blooms of the Japanese Iris are 6 to 10 inches in diameter. They will grow in almost any soil that does not become too dry in Summer, but they prefer a warm, sunny location.

The best time to plant is July, and from then on until the middle of September the plants may be safely planted in localities not too far north, so that they may have time to establish themselves before cold weather sets in. If they are planted rather late, they should be freely mulched after the ground is frozen in late Autumn to keep the ground from heaving.

SPECIAL OFFER

100 Siberian Iris (Mixed) \$5.00

PHLOX

Following the Irises and Peonies in time of bloom, but in no way behind them in popularity, are the Hardy Perennial Phloxes. We have weeded out all the magentas and purples, and believe that our list is as select as that offered by any firm.

Phloxes are shallow-rooted plants and should, therefore, be planted a little deeper than most plants and kept well tilled to conserve the moisture, as they cannot stand dry, packed soil like Peonies and Irises. No fertilizer should be near the roots. A little bone-meal sprinkled on the surface of the ground before hoeing gives good results, but be careful not to use too much.

Shipped after September 1 Parcel Post prepaid

2-yr. Blooming Size Plants, 25c. each,

Sir Edward Landseer. Bright crimson.

W. C. Egan. Pleasing shade of soft pink.

ROSEDALE SOIL

Not the least factor in the success of Rosedale Nurseries has been its perfect soil. Did it ever occur to you that the most important requisite for good trees is good soil—soil in which they find just the ingredients that make them grow clean and thrifty? Rosedale soil seems to have been made on purpose for a nursery. At a bend in the Saw Mill River, where the valley is considerably widened, this old river-bottom has been greatly enriched, not only by the sediment brought down the stream at flood-tide, but by the washing down of the good soil and leafmold from the surrounding hills. We thus have a gravelly loam, superimposed on a clay subsoil. This not only tends to grow masses of fibrous roots but also to form a solid ball of earth for handling of evergreens. Owing to this soil being naturally rich in tree ingredients, the trees do not have to be forced by intensive fertilizing which tends to make hothouse growth.
